**KKK Leader Asked  
To Leave NOW**

HOUSTON, May 27  
(AP)—Scott Nelson, imperial wizard of the Texas Fiery Knights of the Ku Klux Klan in Houston, was asked by security guards to leave the conference of the National Organization for Women.

Some of the delegates apparently felt threatened by cards Nelson distributed Sunday.

His card read: "You have just been paid a friendly visit by the Ku Klux Klan. Should we pay you a real visit?"

Nelson denied that the cards were a threat.
